

## *The Acer Empowering Technology platform — Usability first!*

Breaking the barriers between people and technology, Acer's innovative Empowering Technology invites you to experience, with intuitive ease, the countless benefits of your Acer!

Empowering Technology is based on the philosophy that you, the user, come first. It lets you take advantage of the awesome range of options available from your Acer system, thanks to simple-to-use interfaces and versatile configuration modes.

Acer's Empowering Technology enables you to make the most of cutting-edge innovation — to reach your goals — and enhance your life.

### **Acer Empowering Technology for Notebooks — Convenient control**

The convenient Empowering Technology toolbar and Widget mode make adjustments simple and fast. A practical suite of utilities, Empowering Technology gives you the power to stay in complete control.

One click of the Empowering Technology toolbar is all you need to launch useful Empowering Technology utilities or make quick adjustments in Widget mode.

- **Acer eNet Management:** keeps you online with location-based intelligence
