

# CLOUD COST OPTIMIZATION FOR IaaS

POWERED BY

Our solution leverages AI and Connection's years of expertise in cost control to help you easily track, analyze, and optimize IaaS spend across major cloud providers through a user-friendly app. You can optimize multiple clouds, spot overspending, and simplify invoice management and cost allocations. Our solution also seamlessly integrates with Amazon Web Services (AWS), Microsoft Azure, Google Cloud, and Oracle Cloud. Our Cost Optimization for Private Cloud solution offers a detailed overview of your total private cloud expenses, helping you make informed decisions and accurately identify cross-charge allocations. It supports VMware® private cloud instances by integrating with vCenter and combining all related charges.

Tangoe is a Premier member of the FinOps Foundation, a validation of cloud expense management excellence for organizations of all sizes.
