MICROSOFT 365 COPILOT WORKSHOP

Microsoft Solutions Partner

In the fast-paced and competitive landscape of today's business world, organizations want to tap into the capabilities of AI to boost their productivity, creativity, and innovation. Embracing AI necessitates meticulous planning—thorough preparation and a state of readiness—to guarantee success and return on investment. Microsoft 365 Copilot is no exception.

Embark on the initial stages of bringing AI into the workplace with Connection's Microsoft 365 Copilot Workshop. Designed as a three-phase engagement, our workshop helps you assess needs, prioritize Copilot scenarios, and define an actionable road map. It also offers insight into your readiness and uncovers optimization opportunities through targeted services that develop your data estate, analyze and augment access, and maximize security. Let Connection help prepare you for Copilot and achieve its full benefits and ROI.

Who Should Attend?

This workshop is for organizations that are considering Microsoft 365 Copilot, want to explore its capabilities, and learn what it takes for a successful implementation.

WORKSHOP AGENDA

1 Assess
- Define scope, identify stakeholders, and gather information on key business scenarios
- Complete readiness assessment

2 Art of the Possible
- See what Microsoft 365 Copilot brings to the employee experience by fostering creativity, boosting productivity, and elevating skills
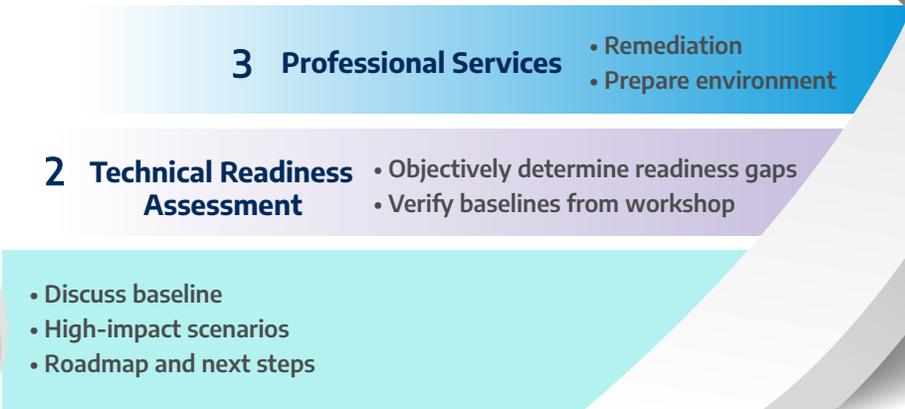

3 Build the Plan
- Develop an implementation plan based on prioritized scenarios
- Define next steps and timeline

Workshop Outcomes

- Discovery and documentation of your organization's current state for technology, architecture, and process
- Creation of a gap analysis with a roadmap to readiness
- Development of SOWs for the services you've chosen to help you prepare for Copilot implementation
- Delivery of a readiness assessment containing observations, recommendations, and a prioritized action plan

Your Copilot Journey with Connection
